PRE- WORLD WAR II POLISH BUSINESS

Prudential plc, one of the UK's leading financial services providers, issued life insurance policies in Poland prior to World War II through Prudential Assurance Company Limited and its subsidiary "Przezornosc", a now defunct Polish company in which Prudential Assurance acquired a controlling interest in 1927.

Przezornosc policy, 1933

Przezornosc continued to issue life policies in Poland until 31 December 1936, and Prudential Assurance issued life policies in Poland from 1 January 1933 to 31 December 1936. With effect from 1 January 1937 both companies ceased to accept new life business and the administration of the two portfolios was combined.

Prudential policy, Polish class, 1933

Based on notes of surviving records that existed in Prudential Assurance's London office there were 4,623 policies in force in Poland at the outbreak of World War II in 1939. Over 40% of these policies have been settled since the early 1950s despite significant gaps in our records, due in no small part to their destruction in Poland under Nazi Occupation.

The assets of Prudential's Polish Business were seized by Germany, following its invasion of Poland in 1939. Unlike some major European insurers Prudential did not trade in Nazi occupied Europe.

Prudential will continue its long-standing practice of passing details of any claims made to internationally recognised legislative and regulatory bodies as required by them. Existing information on its Pre-World War II Polish Business has also been supplied to the International Commission on Holocaust Era Insurance Claims (ICHEIC) in an effort to ensure the continuing return of unclaimed assets to their rightful owners.

If you are a surviving policyholder, or are a relative of a former policyholder and believe that you have a valid claim on one or more of the unsettled policies in the list, please contact us providing details of any supporting evidence relating to your claim.
